

# NEIL ROBERTSON STRETCHER

## RESCUE EQUIPMENT

### 1 OVERVIEW

The Neil Robertson Stretcher & Carry Bag is constructed from strong spliced slats and tough cotton. It ensures the patient is secure and stable before and during lifting. A well proven rescue stretcher, the Neil Robertson provides comfort and security to the casualty whilst enhancing the rescue effort. Designed for use in instances where the casualty needs to be lowered or lifted to safety, this stretcher is widely used by the Royal Navy, Merchant Navy, Mining, Industry and Emergency Rescue Services.

## 2 FEATURES

- ❑ Constructed From Spliced, Ramin Slats with A Tough Rot Proof Cotton Exterior
