PIG® SPILL RESPONSE BUCKET

ABSORBENTS & SPILL CONTROL

1 OVERVIEW

A spill kit contained in a UN- certified shippable 24-litre polyethylene bucket consisting of a variety of absorbents to absorb petroleum based liquids and not water. The PIG® Spill Response Bucket simplifies emergency spill cleanup of petroleum-based liquids. The PIG® Spill Response Bucket is placed in any spill prone area, eliminating the guesswork that wastes precious time. The PIG® Spill Response Bucket is also highly visible and self-contained.

2 FEATURES

- Non-Absorbent Pad Holder Is Made Of 610 G/M2 Vinyl-Coated Fabric — Keeps Oil From Soaking Through And Contaminating Floor Surface Underneath
- Pocket on the Back of Pad Holder Holds Up To 5 Spill Pads — Can Also Hold a Weight to Keep Holder in Place in the Wind
- Holder Accommodates Oil-Only Spill Pads (Included) — Absorbs Oil-Based Liquids
- Corner Grommets — Pad Can Be Tied To the Ground or To a Vehicle
- Stay Right Where You Want Them; Even In Windy Conditions
