

STIFFY SAFEHAND TOOL

SAFEHANDS TOOLS

1 OVERVIEW

The Stiffy Hand Tool is a great tool for effective implementation of hands-free and hands-off policies. When used effectively and as designed, the Stiffy Hand Safety Tool provides a buffer zone of safety where personnel can guide, manoeuvre, and spot suspended loads while avoiding pinch and crush points. The Stiffy Hand Safety Tool gives operators a way to mitigate risk by equipping and training workers to not place themselves in danger by working in an unsafe proximity to hazardous suspended loads.

2 FEATURES

- Load Testing: Static Pull 400lbs, Compression 600lbs
- Enhanced with a carbon Fibre Sleeve on the neck Protects Fingers, hands and arms by avoiding Pinch and crush points.
- Use to retrieve various size slings
- Mitigates risk of hand injuries
- Offers a buffer zone of safety
